PROFILE SUMMARY

- Enthusiastic and motivated MCA student with hands-on project experience in full-stack development.
- Built two working web projects during my education journey using PHP and ASP.NET, and one during master's using Django (Mineral Water Distribution System).
- Proficient in Frontend Designing, Web Development, and working with databases like MySQL, MongoDB, and PostgreSQL.
- Strong understanding of project development lifecycle and a fast learner of new technologies.
- Eager to learn, collaborate in team environments, and deliver results aligned with project requirements.

EXPERIENCE

MOWEB TECHNOLOGIES | Full Stack Developer Intern
Jan 2025 - May 2025
- Gained hands-on experience with React, TypeScript, MongoDB, and PostgreSQL while working on real-world projects.
- Built and integrated APIs in a project, learning full-stack workflows and development lifecycle.
- Contributed to multiple team projects, consistently meeting requirements and deadlines.
